

✓
On page 9, line 28, between "may" and "include", insert – optionally -- .

On page 10, lines 5-6, delete "bump the value away from the other graphics controllers"

and insert – ensure that all graphics controllers in the content source device are represented by

A3 CONCL. unique values – ;

On page 10, line 9, after "40-bit LFSR.", insert – The LFSR provides additional entropy to

A4 CONCL. increase the uniqueness, for example, when many devices of the same type are installed. -- .

✓
On page 12, line 9, delete "For" and insert – In the current -- .

✓
On page 15, line 6, delete "Kp" and insert – (Kp) -- ;

✓
On page 15, line 7, between "with" and "the", insert – a cryptographic protocol for

A5 CONCL. ensuring data integrity, for example, -- ;

On page 15, line 9, delete "Kp" and insert – (Kp') -- . ✓

NE. On page 18, delete "as" and insert – of -- .

IN THE DRAWINGS

Please cancel Figure 3A as filed on September 29, 2000 and replace with Figure 3A as attached hereto.

REMARKS

No new matter has been added to the specification. The specification has been revised to more accurately define the invention disclosed in the patent application as filed on September 29, 2000.

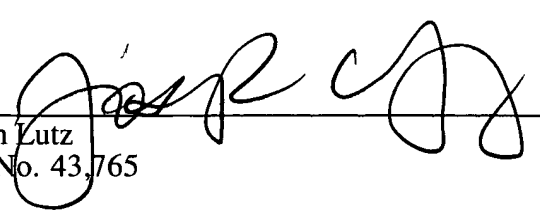

The new Figure 3 submitted herewith accurately depicts the disclosure of the invention set forth in the specification. Figure 3 has been revised to accurately reflect the description number for the blender. The revision to the description number is in red. No new matter is included in new

Figure 3. Therefore, Applicants request that Figure 3 attached hereto be included with the above referenced patent application and replace Figure 3 as filed on September 29, 2000.

Respectfully submitted,

BLAKELY, SOKOLOFF, TAYLOR & ZAFMAN
